

NOTICE

-MCH Pheromone Capsules for Douglas-fir bark beetle deployed in area. (4/20/2020)

-Due to recent blowdown event, increased bark beetle attacks are expected on standing green Douglas-fir trees. These pheromone capsules greatly increase standing tree survival.

-You may notice an odor associated with the MCH capsules.

-DO NOT TAMPER WITH CAPSULES!

-Precautions:

- If capsules are intact, **no special precautions required.**
- If capsules have been punctured or are leaking; precautions include latex or vinyl gloves **if handled**; **devices may be disposed in domestic garbage**. Punctured or leaking devices may present the following hazards:
 - Flammable liquid and vapor;
 - Respiratory irritation;
 - Skin irritation and serious eye irritation.
